Candidate: Dhyey

Questions Attempted: 1

Total Time Taken: 0 minutes 2 seconds

Each question starts on a new page. Time spent per question is shown in bold green.

Question 1

Time Spent: 0m 2s

Create an HTML page with a button that changes the background color of a div when clicked.

Answer:

```
// Create an HTML page with a button that changes the background color of a div when
clicked.
function toggleDivColor() {

}
```

Evaluation:

Passed 0/1. All test cases failed.

Code Quality: 3/10

Reason: The code is incomplete and lacks the necessary logic to achieve the desired functionality. There are no comments, making it difficult to understand the intended implementation.

Issues:

1. Line function toggleDivColor() {: The function is empty and does not contain any code to change the background color of the div.
